

## Are the Cogent TYPE-C Silica based stationary phases available for sale as bulk materials – FAQ

No, the Cogent 4um and 2.0 TYPE-C Silica™ based stationary phases are not available for sale as unpacked bulk material.

TYPE-C Silica™ is a very unique material and to properly pack columns or capillaries requires proprietary technology. For this reason, it is only sold in a pre-packed column format. However, 10um particles can be made available upon request.
