

What is an EPP or easy purchase pack – FAQ

The easy purchase pack (EPP) is a combination kit and an easy way to order autosampler vials and matching caps as one catalog number or SKU.

This is also a great way to manage your inventory since both the vials and caps are supplied in individual packaging but are boxed together as one item. Easy to store and dole out.

Issue one easy purchase pack (EPP) to an analyst for easy management and it is an easy way to order.
